Declaration of Conformity REACH

As a manufacturer of fastening technology products, we, TOX-Dübel-Technik GmbH, are subject to the following, in particular

- Duty to inform according to Article 33 REACH concerning SVHC
- Prohibitions and restrictions of the use of certain substances in articles according to Title VIII REACH (specified in Appendix XVII REACH) as well as
- Communication obligations in the supply chain as downstream user of mixtures in the form of chemical products.

We currently purchase chemical products exclusively from EU suppliers and are therefore not subject to any registration obligations under REACH.

Our suppliers are made aware of the provisions applicable under REACH at appropriate intervals and are obliged to confirm the compliance of the products supplied to us with the chemical legislation and to inform us if one or more SVHC are present in a product in an individual concentration of > 0.1 mass %.

Since 01.01.2021, according to SCIP, complex articles containing a critical substance from the SVHC candidate list and a mass fraction > 0.1% must also be identified in the REACH declaration.

This applies to the following products from our product range which have a lead content of > 0.1% PB for technical production reasons.

Brass expansion dowel	with a lead content > 0,1% CAS 7439-92-1
Apollo	with a lead content > 0,1% CAS 7439-92-1
Control	with a lead content > 0,1% CAS 7439-92-1
Impact	with a lead content > 0,1% CAS 7439-92-1
Threaded rod M8x160 / M8x240	with a lead content > 0,1% CAS 7439-92-1
Spagat / Spagat Pro	with a lead content > 0,1% CAS 7439-92-1
Cleaning brush	with a lead content > 0,1% CAS 7439-92-1

With kind regards

TOX-Dübel-Technik GmbH

i.V. Jürgen Leypoldt

Head of Quality Management
